

# Health Supply Chain Management

- Live Online Course –  
10 - 14 May 2021

## Who is this course for?

People who are responsible for planning, procuring, distributing or monitoring health programme supplies will benefit most from this course.

## What will you learn?

You will gain the knowledge and tools needed to achieve supply chain excellence - **even during a pandemic**. It provides a clear and detailed understanding of best practice for all the functions of the supply chain and how they can work successfully together.

## Why study with us?

Gain a toolkit to advance your career and help your organization thrive in just **10 hours** of teaching from the comfort of your desk or via your smartphone on-the-go.

**Earn 4  
CPD  
points**

## What does the course cover?

The course structure is based on the 6 + 1 rights of a health supply chain: **the right goods, the right quantity, the right cost, the right condition, the right place, the right time, and the right interventions.**

Focusing on high level skills you will understand the end-to-end requirements for a sustainable supply chain.

## Why you need these skills NOW

The arrival of the COVID-19 pandemic has disrupted the global supply chain like has never been seen before and has been a wake-up call to organisations to ensure their supply chain staff are equipped to deal with the ongoing challenges that impact the lives of so many.

**This is your chance to shine.**

## What's included?

- ✓ 5 x 1-hour live lectures
- ✓ 5 x 1-hour topical discussion sessions
- ✓ Test-your-learning quizzes
- ✓ Handouts, case studies and recommended resources through **PSA Academy**.
