For seasoned organizational/ business leaders there is nothing new under the sun. However, it is paramount for organizational leaders to remain flexible and open to new laws, strategies, processes, methods and solutions that evolve with evolving challenges. In Kenya, The Public Procurement and Asset Disposal Act, 2015 (PPADA 2015) is envisioned to transform public procurement into a professionally managed and strategic enterprise that serves national interest but procuring entities continue to face challenges implementing the Act. This training is designed to address typical procurement challenges while providing practical solutions to decision makers, SCM practitioners and user departments on delivering value for money and timely solutions

The training targets Heads of Procurement & SCM, Board/ Council Members, Chief Executive Officers, Accounting Officers, County Chief Officers, County Assembly Clerks, Finance Managers and Heads of User Departments.
